

Safe Journeys, Modern Trust With Us

“Empowering Drivers and Ensuring Passenger Safety – This is our goal”

www.hybrotechinnovations.com

About **HYBRO** Tech Innovations

Hybro Tech Innovations' is not merely a technology company; it is a movement dedicated to the progress and safety of the common working class. The foundation of this company was laid by its founder, Mr. Sunil Jagannath Kamble, drawing upon his extensive 10 years of experience and a deep sense of social responsibility.

OUR CORE OBJECTIVES:

- **Safety:** To ensure travel safety by conducting state-of-the-art and reliable testing of CNG cylinders through our 'Hybro Hydro Lab'.
- **Empowerment:** To empower rickshaw and cab drivers by integrating them with technology, thereby preventing their financial exploitation and enabling them to lead a life of dignity.
- **Transparency:** To maintain transparency and uphold high standards of quality in every service we provide.

WHY ARE WE DIFFERENT?

We do not merely provide services; we offer innovative 'AI-based' solutions that are environmentally friendly and beneficial for human welfare. Our ultimate goal is to bridge the gap between 'Humanity and Technology' to ensure that the benefits of progress reach even the last person in society.

COMPANY VISION & MISSION

OUR VISION

To make Pune and Pimpri-Chinchwad cities the world's safest and smartest transport hub. Where every driver owns their own home and every passenger is guaranteed a safe journey.

OUR MISSION

01

Financial Freedom

To free drivers from the clutches of loans and commissions.

02

Safety First

To bring road accidents to zero by conducting timely and accurate testing of every CNG vehicle

03

Technology

To replace old methods with state-of-the-art 'Hydrostatic and AI' technology.

WHY CHOOSE

Hybro Tech Innovations

Visual Inspection

A thorough visual inspection of the cylinder should be conducted to check for any dents, corrosion, or other forms of damage.

Leak Testing

CNG (Compressed Natural Gas) cylinder leak testing is a process used to identify and locate any gas leaks from a CNG cylinder.

Ultrasonic Testing

Ultrasonic testing is used to detect any internal flaws or defects that may not be visible during visual inspection.

Hydraulic Testing

This test involves filling the cylinder with water and pressurizing it to a specific level to check for any deformations leaks.

COMMITMENTS

At Hybro Tech Innovations, our team is our strength. We take pride in our extensive network of highly trained, eco-authorized service technicians. They are the backbone of our operations, ensuring that every conversion is not just a technical upgrade but a step towards a cleaner environment. Our technicians are the embodiment of our commitment to excellence.

OUR COMMITMENTS

- ✓ To achieve customer delight by understanding their needs and value creations through operational excellence
- ✓ To continuous improvement in quality in all areas of business through progressive adoption of Latest technology for Quality Management
- ✓ To strive for continuous improvement of processes, by personnel development and by empowering employees.
- ✓ In-depth industry knowledge
- ✓ Transparent business dealings

03

04

Join 'Hybro Sarathi' Parivar

Become a member of our exclusive community. Get accidental insurance coverage, scholarship benefits for children, and future testing reminders.

Meet Our Director

OUR DIRECTOR CNG Expert in Pune

I am Sunil Kamble, the founder of this company. 'Hybro Tech' is not just a company; it is an 'extraordinary movement' started by an ordinary auto-rickshaw driver. I myself have driven an auto-rickshaw for many years. I have witnessed firsthand the problems of potholes on the roads, rising inflation, agent exploitation, and passenger safety. Therefore, we established 'Hybro Tech Innovations'.

Our objective is not just to earn profit, but to make the lives of both drivers and passengers easier by using 'AI technology' (Artificial Intelligence) in the transport sector. Today, we are bringing about two major revolutions - one for travel and the other for safety."
